PROFESSIONAL SUMMARY

Motivated and enthusiastic Computer Science undergraduate with a strong foundation in web development, programming, and software engineering principles. Proficient in JavaScript, Python, HTML, CSS, React.js, Node.js, Express.js, MongoDB, and Firebase, with hands-on experience developing academic and personal projects. Eager to apply technical knowledge, learn from experienced professionals, and contribute to building innovative and user-focused software solutions as a software development intern.

EDUCATION

Bachelor of Computer Science and Information Technology

Deerwalk Institute of Technology (Tribhuvan University)

December 2022 – Present

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, PHP

Web Technologies: HTML, CSS, React.js, Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Platforms: Firebase, Git, VS Code, Postman

KEY PROJECTS

Real-Time Chat Application

React.js, Firebase

- Developed a real-time chat application using React.js and Firebase Realtime Database.
- Implemented Firebase Authentication for secure user registration and login.
- Added features including real-time messaging, chat rooms, and online/offline user status tracking.

Web-Based Quiz Application

PHP, MySQL

- Designed and developed an interactive quiz platform with dynamic question management.
- Implemented user authentication, score tracking, and automated result evaluation using PHP and MySQL.
- Built a responsive user interface using HTML, CSS, and JavaScript while ensuring secure database operations.

Learning Management System (LMS)

React.js, Node.js, MongoDB

- Developed a comprehensive e-learning platform using the MERN stack with dedicated portals for students, teachers, and administrators.
- Integrated Clerk for secure user authentication and the Stripe API for seamless processing of course enrollments and payments.
- Implemented a personalized course recommendation engine utilizing TF-IDF tokenization to suggest relevant content to users.
